

# THE DETROITS DEFEATED AGAIN.

THE CUBS AGAIN OUTPLAY THE TIGERS AT CHICAGO.

SCORE RESULTING 5 TO 1.

Siever Batted Out of the Box in the Fourth Inning—Kilian Finished Game—Reulbach Too Strong for the Tigers.

Chicago, Oct. 11.—The Detroit American league team suffered its second successive defeat at the hands of the Chicago Nationals Thursday, scoring only one run. Chicago tallied five times, four of the runs being the result of solid hitting. Siever started to pitch for Detroit, but the locals took kindly to his curves and batted him out of the box in four innings. Kilian then took up the work and was found for three hits and another run in the fifth.

Detroit tried vainly to break through the Chicago's defense. Reulbach pitched strongly in the opening innings and when he showed signs of weakening in the fifth and sixth innings his team mates came to his rescue with fast double plays.

For some unexplainable reason the game failed to attract the usual large crowd to the grounds. The official attendance figures made the total 12,114 and the many empty spaces in the extended bleachers made the gathering appear even smaller than this. At that, the crowd was more demonstrative than the big one of Wednesday.

Reulbach's brilliant pitching in the early innings and the crashing hits of Steinfield, Evers and Sheppard roused the Chicago partisans, while the Detroit contingent cheered the more heartily, so that the visiting team might not think itself deserted.

The play was much faster than on the preceding days. Only 13 batters faced Reulbach in the first four innings, while the Chicago team lost no time in straightening out Siever's benders.

The first run came in the second inning when Steinfield lined the ball over third base, reaching second on the hit. Kling sacrificed and Evers stung a double over first base. Steinfield scored, but Evers was left when Schulte and Tinker were retired on infield grounders. With Reulbach going at top speed, that one run looked good enough to win, but just to make the result certain, the Nationals went after Siever's curves savagely in the fourth.

Steinfield drove a long fly to left field to start the inning, Jones getting the ball near the boundary. Kling followed with a hard single to right. Evers sent him to third with another drive to the same territory, and Schulte dropped a fly safely in center, Kling scoring. Evers tried to make third on the hit, but was caught and run down by a swarm of Detroit players. Schulte advancing to second, Tinker lifted a high fly to Jones, but the left fielder dropped the ball. Schulte scoring and Tinker going to third. Reulbach cut a low ball over second base, sending Tinker home. Coughlin then caught Siever's high fly.

Manager Jennings decided that Siever had failed to make good, so Kilian appeared in the next inning. He was greeted warmly enough, two doubles and a hard single being gleamed off his delivery. Only one run resulted, however, as the hits alternated with outs. Chance secured the first double and consequently scored the run.

For the next three innings the locals went out in order, except in the seventh, when Steinfield received a base on balls after two were out. Kling's twisting foul to Coughlin followed.

Detroit lost its first chance to score in the fifth because Tinker intercepted a liner and turned the catch into a double play. Rossman was first up and was safe when his hard hit grounder bounced off Tinker's ankle. Coughlin was passed and Schmidt's grounder down the first base line advanced both runners. O'Leary snatched a hard liner at Tinker and the latter jumped, caught the ball and stepped on second base ahead of Coughlin, retiring the side.

Another chance to score was lost in the next inning. With one down, Schmidt walked. O'Leary struck out and Kilian scratched a hit toward Evers. Jones was not equal to the emergency, going out. Tinker to Chance. Rossman started the ninth with a hit, but was forced at second by Coughlin, who was forced to remain on first, while Schmidt and O'Leary lifted easily caught flies.

Games will be played in Detroit today and Saturday, the Sunday contest being scheduled for Chicago.

The receipts yesterday were \$16,212.50, divided as follows: To the national baseball commission \$1,621.25; to the players \$9,727.50; to each club \$2,131.85.

New York, Oct. 11.—Mrs. Mary Ann Pepper-Vanderbilt, the spiritualist medium, was formally placed under arrest Thursday on a charge of grand larceny. The boat caught fire and the occupants, being unable otherwise to put out the flames, overturned the skiff. Subsequently four of them perished, three being saved in an exhausted condition by a passing steamer after having clung to the overturned boat for more than two hours.

It is charged that Mrs. Pepper-Vanderbilt obtained Vanderbilt's house and lot in Brooklyn under false pretenses. ## RAILROAD COMMISSIONERS.

ENACTMENT OF THE HEPBURN RATE LAW.

WAS A VICTORY FOR THE

People, and an Endorsement of the President, Inter-State Commerce Commission and State Railroad Commissioners.

Washington, Oct. 11.—At Thursday's session of the National Association of Railway Commissioners an important report was presented by Commissioner Martin S. Docke, of New York, for the committee on legislation. He said that the enactment of the Hepburn rate law was "a great victory for the people and a magnificent endorsement of the president, the inter-state commerce commission and the state railroad commissioners."

"That the laws passed by state legislatures during the year for the regulation of railway traffic and service would be regarded with satisfaction by all railway companies and others who must conform to such prohibitions and requirements may not, of course, be expected. Nevertheless, it is significant of the effect of an aroused public opinion that very many railway officers have during the year freely conceded that regulation fair and just as between the railways and the public promotes the stability, and even operates as a partial guarantee, of railway revenues."

"Apparently the apprehension of many railway executives is that the roads possibly may be subjected to serious loss as between the railways and the public promotes the stability, and even operates as a partial guarantee, of railway revenues."

"The report of the committee on legislation is now practically finished. The sitting today will merely agree on the form of a declaration regarding obligatory arbitration."

Patrolman James Lotzsch has a bullet wound in his hand. Neece shot the waiter and attempted to kill the officer but was shot and killed by the latter.

**Report Very Unsatisfactory.**  
Columbus, O., Oct. 11.—What reports to be the state statistics for the year ending March 31, 1907, have been compiled by the statisticians in the office of the secretary of state, with the usual absurd results, owing to the failure of assessors and county officials to make proper reports. Generally, the small counties make fairly accurate returns, but those from the big counties have long been jokes. In Cuyahoga county during the entire year there were 242 births, according to the returns. During the same time there were 3816 deaths in Cuyahoga county. Hamilton county reported only 140 deaths and 405 births.

**Found Dead.**  
Columbus, O., Oct. 11.—With the back of his head crushed in and many bruises about his shoulders, a man supposed to be R. O. Hardick, was found dead, lying against a pile of ties just opposite the Ralston steel car works Thursday. The only means the coroner had of identifying him was a card bearing the name and address of East Columbus. On it was "return in five days to Lucy Beckett, Point Pleasant, W. Va." The man was of large stature and apparently about 35 years of age. He was dressed in a gray checked coat and blue serge trousers.

## STANDARD OIL CO. HEARING.

SOLUTION OF THE SITUATION BECOMES MORE PUZZLING.

Books of the Southern Pipe Line Co. Show Loans of Over \$200,000,000 to P. S. Trainor—Denies He Received Money.

New York, Oct. 11.—Loans of over \$200,000,000 which the books of the Southern Pipe Line Co. show were made to P. S. Trainor between 1899 and 1905, became more puzzling of solution to Frank H. Kellogg, conducting the federal suit against the Standard Oil Co. Thursday, when Mr. Trainor, taking the witness stand in the oil suit, testified that the money had never been paid to him, and that he had never heard of the account. The Southern's books show that unsigned vouchers were received for these loans and that the money was never paid back to the company. Mr. Trainor said that he was formerly crude oil purchasing agent for the Standard Oil Company of New York, and, as such, purchased all the oil and sold it to the refineries. He said he acted in a similar capacity now for the Standard Oil Company of New Jersey. Mr. Kellogg called Mr. Trainor's attention to the various loans, amounting to over \$200,000,000 which were made by the Southern Pipe Line Co. and charged to "P. S. Trainor," and asked him to tell all he knew concerning the loans.

"I do not know anything about these loans," answered Mr. Trainor. "I had an oil account with the Southern Co., but no money account. I never gave them any vouchers and never heard anything about the loans."

Mr. Trainor said that he fixed the price paid for crude oil after consulting with John D. Archbold, vice president of the Standard. These consultations were held daily. Mr. Trainor said, and after they were over he made public the market price of crude oil.

H. M. Tilford, treasurer of the Standard Oil Company of California and president of the Continental Oil Co., when asked to produce the reports of the Continental Co., testified that whenever a new report was received he invariably destroyed the old one.

Mr. Kellogg will have a conference with Attorney General Bonaparte at Washington today to discuss the progress of the government's case against the Standard Oil Co.

**PEACE CONFERENCE.**  
The Work of The Hague Delegates is Practically Finished.

The Hague, Oct. 11.—The first part of the proposition of Prof. De Martens, suggesting a plan for obligatory arbitration in the form of an additional act of the convention, was rejected Thursday by the committee on arbitration. The professor withdrew his whole proposition.

M. Bourgeois, who presided at the meeting of the committee, proposed the appointment of a special committee to draft a declaration, which the conference must approve unanimously, stating that obligatory arbitration is adopted in principle.

The report of James Brown Scott, on the proposed international high court of justice, was adopted by the committee by 38 to 3 votes, three delegates being absent.

The resolution of Sir Edward Fry to the effect that the governments in the court so soon as they have agreed on the method by which the judges are to be chosen, was then passed almost unanimously.

The work of the peace conference is now practically finished. The sitting today will merely agree on the form of a declaration regarding obligatory arbitration.

**ADULTERATION OF OLIVE OIL.**  
Spanish Dealers Are Putting Out a Cheaper Quality.

There has been so much talk about the alleged adulteration of olive oil instituted by the government and the leading producers, the result of which has been the issuing of a statement that owing to the abnormally high prices some dealers have resorted to adulteration with linseed or sesame oil in order to bring it within the reach of their poorer customers. It is understood, indeed, that some manufacturers of these seed oils have prepared a special grade from the first crushings which is being used for the purpose.

Representations have been made to the government with a view to protecting the interests of the manufacturers of olive oil, but some of the leading olive oil crushers have held aloof, considering such action futile. Inasmuch as the prevailing conditions will, in all probability, have disappeared within a few months, and the enforcement of existing municipal, by-laws and regulations is all that is required to insure that no olive oil be sold as such which contains an admixture of other oils. The report is that the adulterations were confined to oil for local consumption.

**MR. McKIM FOUND OUT.**  
Fine Work on the Old College Church at Dartmouth Pleased Him.

The old college church at Hanover was built in 1795 and restored in 1889 by the late Stanford White at the expense of Hiram Hittcock, proprietor of the Fifth Avenue hotel in New York, who was never a student, but is a trustee of Dartmouth, and is a native of Hanover.

He began his career as a hotel keeper here, and has had a summer home here through all his life.

The church is one of the purest examples of the old colonial school I have seen. Charles F. McKim, the famous architect and head of the firm McKim, Mead & White, who visited Hanover several years ago, was very much impressed with its beauty.

When he returned to New York he told Mr. White that he had seen one of the best specimens of colonial architecture in America.

"Where was that?" said White. "It is the college church at Dartmouth," replied Mr. McKim. "and it has recently been restored in an almost perfect manner. I wonder who did it."

"We did," said White.

room was crowded with delegates, all anxious to speak. Lucian C. Warner, of New York, a member of the Chicago council, explained the plan as devised at Chicago and favored the plan heartily. Rev. Robert W. Gammon, of Illinois, opposed the plan on the ground that the churches have not enough in common to make uniting feasible.

**Gen. Eckley Seriously Ill.**  
Carrollton, O., Oct. 11.—Gen. Ephraim R. Eckley, 96, the oldest living ex-member of congress, is seriously ill. Up to the last few days, he enjoyed vigorous health and retained all of his mental faculties. He has lived under all the presidents of the United States except Washington, Adams and Jefferson. He was twice a state senator and attended the first republican convention at Philadelphia, in 1856. He was elected to congress in 1863, while serving in the army, and was sworn in with Garfield and Blaine.

**Will Try to Increase the Fees.**  
Columbus, O., Oct. 11.—William Medaris, one of the assistant attorneys general, left for Cleveland on Thursday to confer with officials of the American Steel Plate and Steel Co. The company has a capital stock of \$50,000,000 and nine plants in Ohio. It is paying fees as a foreign corporation on only \$4,000,000. Mr. Medaris, who has charge of the collection, claims that this is not a fair proportion of the capital of the company to credit to this state and will endeavor to have it increased.

**Will Await Developments.**  
Chardon, O., Oct. 11.—No steps will be taken for a trial of George N. Ford, brother of the convicted Burton banker, until court rules on the application of R. N. Ford for a fourth trial. If the motion for a new trial is granted, the trial will be disposed of before action is taken in the case against George Ford.

**Attempted Suicide.**  
Port Clinton, O., Oct. 11.—Mrs. Charles Worden, a young woman, made a desperate effort to kill herself Wednesday night by taking carbolic acid. She is in serious condition. **Run Cars Hourly.**  
Cleveland, Oct. 11.—The Cleveland & Southwestern and Lake Shore Electric have cut their interurban service by withdrawing all cars that formerly left Cleveland on the half hour. Hereafter a one-hour schedule will be in effect. Failing off in traffic with the coming of fall is given as reason for the change.

**Russian Officer Shot.**  
Sevastopol, Oct. 11.—Capt. Liliin was shot and killed by an unknown man Thursday as he was leaving his house. The assassin escaped.

New York.—An aesthetic burglar entered the home of John Cleary, a retired merchant, at Carpenter and Westchester avenues, the Bronx, after packing the family silver, jewelry and a collection of rare gold coins in a suit case, he disrobed and took a plunge in the bath tub, after which he shaved himself with Mr. Cleary's razor, and then he donned silk underwear, Hile socks, tan shoes and a neat striped suit of Mr. Cleary's clothes. He also took a new brown derby. Then he spread a cloth for himself in the dining room and ate of the best from the larder, opening a bottle of claret.

**Read Own Marriage Vows.**  
Bristol, Va.—The Reverend A. H. Burroughs, Bristol's wizard matrimonial paragon, joined a couple in marriage here in double-quick time.

The young couple had eloped from Bluefield, W. Va., and were anxious to get the first train back. The parson had to hurry down town for the license, and when he returned he found that the time was too short to undertake to say the ceremony and fill out the certificate and collect the indispensable fee. He hit upon a novel plan.

Handing the couple a copy of his ceremony he requested them to read it over aloud, he agreeing to ask their assent to the vows as they read, at the same time filling out the marriage certificate.

## SCHOOL BOY A WONDER

YOUTH HAS REALLY REMARKABLE RECORD.

E. Frank Schey, of Easton, Pa., Was Not Absent from His Studies One Day in Eleven and a Half Years.

Easton, Pa.—The recent publication of an article regarding the remarkable record for attendance and punctuality achieved by a graduate of the Easton high school, Ellsworth S. Krantz, led to an interesting investigation of the records of the public schools of this city in order to ascertain who held the best average in that respect, and to E. Frank Schey, of South Fourth street, belongs the honor.

Young Mr. Krantz, during a school career of 12 years, lost but one and a half days through absence, and during the past nine years was present every day. He had a perfect record for punctuality, never having been tardy.

Mr. Schey, however, exceeded this record. He was not only never tardy, but during the 11 1/2 years that he has attended the public schools of Easton was never absent—not even a half day.

Mrs. Schey entered the primary school taught by Miss Ella J. Gersach on the opening of the second term of 1874-1875. He passed through each successive grade, repeating his record for punctuality and attendance until September, 1884, when he entered the high school.

He remained a student in the high school six months, terminating his school career on the last day of February, 1885. He entered the high school with the grade of 88.2, the highest attained by a grammar school scholar in this city. When he left the high school he also led his class, having attained an average of 93.75.

During these 11 1/2 years there were 2,109 school days. Mr. Schey was at his seat and on time, upon every occasion. Once, when Barnum's circus was in Easton, showing on a lot adjoining the school building of which he was a pupil, Mr. Schey was the only scholar who answered the roll call. It is believed that this remarkable record cannot be equaled anywhere else in the state of Pennsylvania.

The habits of regularity formed by Mr. Schey during his school days have no doubt contributed to the material success won by him in after years. He is now chief clerk in the leather house of C. Flemming Sand, secretary of the council of St. John's Lutheran church and one of Easton's best-known and popular young men.

**FIREMEN ON FORCED JAG.**  
Are Intoxicated by Fumes from Burning Liqueur Store.

Portland, Ore.—Members of the Portland fire department have had their first experience with "drunken smoke," and as a consequence there were many throbbing brows and aching heads.

Fire broke out in the basement of a wholesale liquor house on Sixth street, filled the cellar and first floor with dense fumes of alcohol, and drove eight firemen dizzy, staggering, drunk, in fact—to the street above.

With the first whiff of fresh air every man was so affected by the reaction that he collapsed and some of them turned deathly sick. Drs. D. H. Rand, Charles Hill, and Earl Smith, who did valiant service in reviving them, found that the fire fighters had every symptom of simple intoxication.

Fumes of burning liquor, it is said, produce intoxication. After they located a burning whisky cask in the far end of the cellar the firemen got strangely intoxicated. During the progress of the fire, between smoke whiffs, the crowd in the street began to act queerly. "Yap" Edwards grew so enthusiastic that he climbed a telegraph pole and proposed three cheers for the whisky trust.
